

LEED[®] FOR CONTRACTORS

An Introduction for Contractors and Trade Contractors

Hosted by ICBA and Metro Vancouver, this half-day seminar is aimed at introducing LEED to general and trade contractors. The presenters will provide an overview of how LEED works, the contractor's specific roles and responsibilities when undertaking a LEED project, documentation requirements, and the practical details of how to navigate the LEED process to successfully deliver a LEED project. Attendees will receive an accompanying guide, Green Construction: Introducing Green Buildings & LEED to Contractors.
